### Electronic Contents (in the Microsoft Excel file)

2. A worksheet containing a data listing of demographic elements by population unit, with a blank column for district number entry.
3. A summary worksheet showing the demographics for each entered district and for any remaining unassigned area(s).

### Instructions

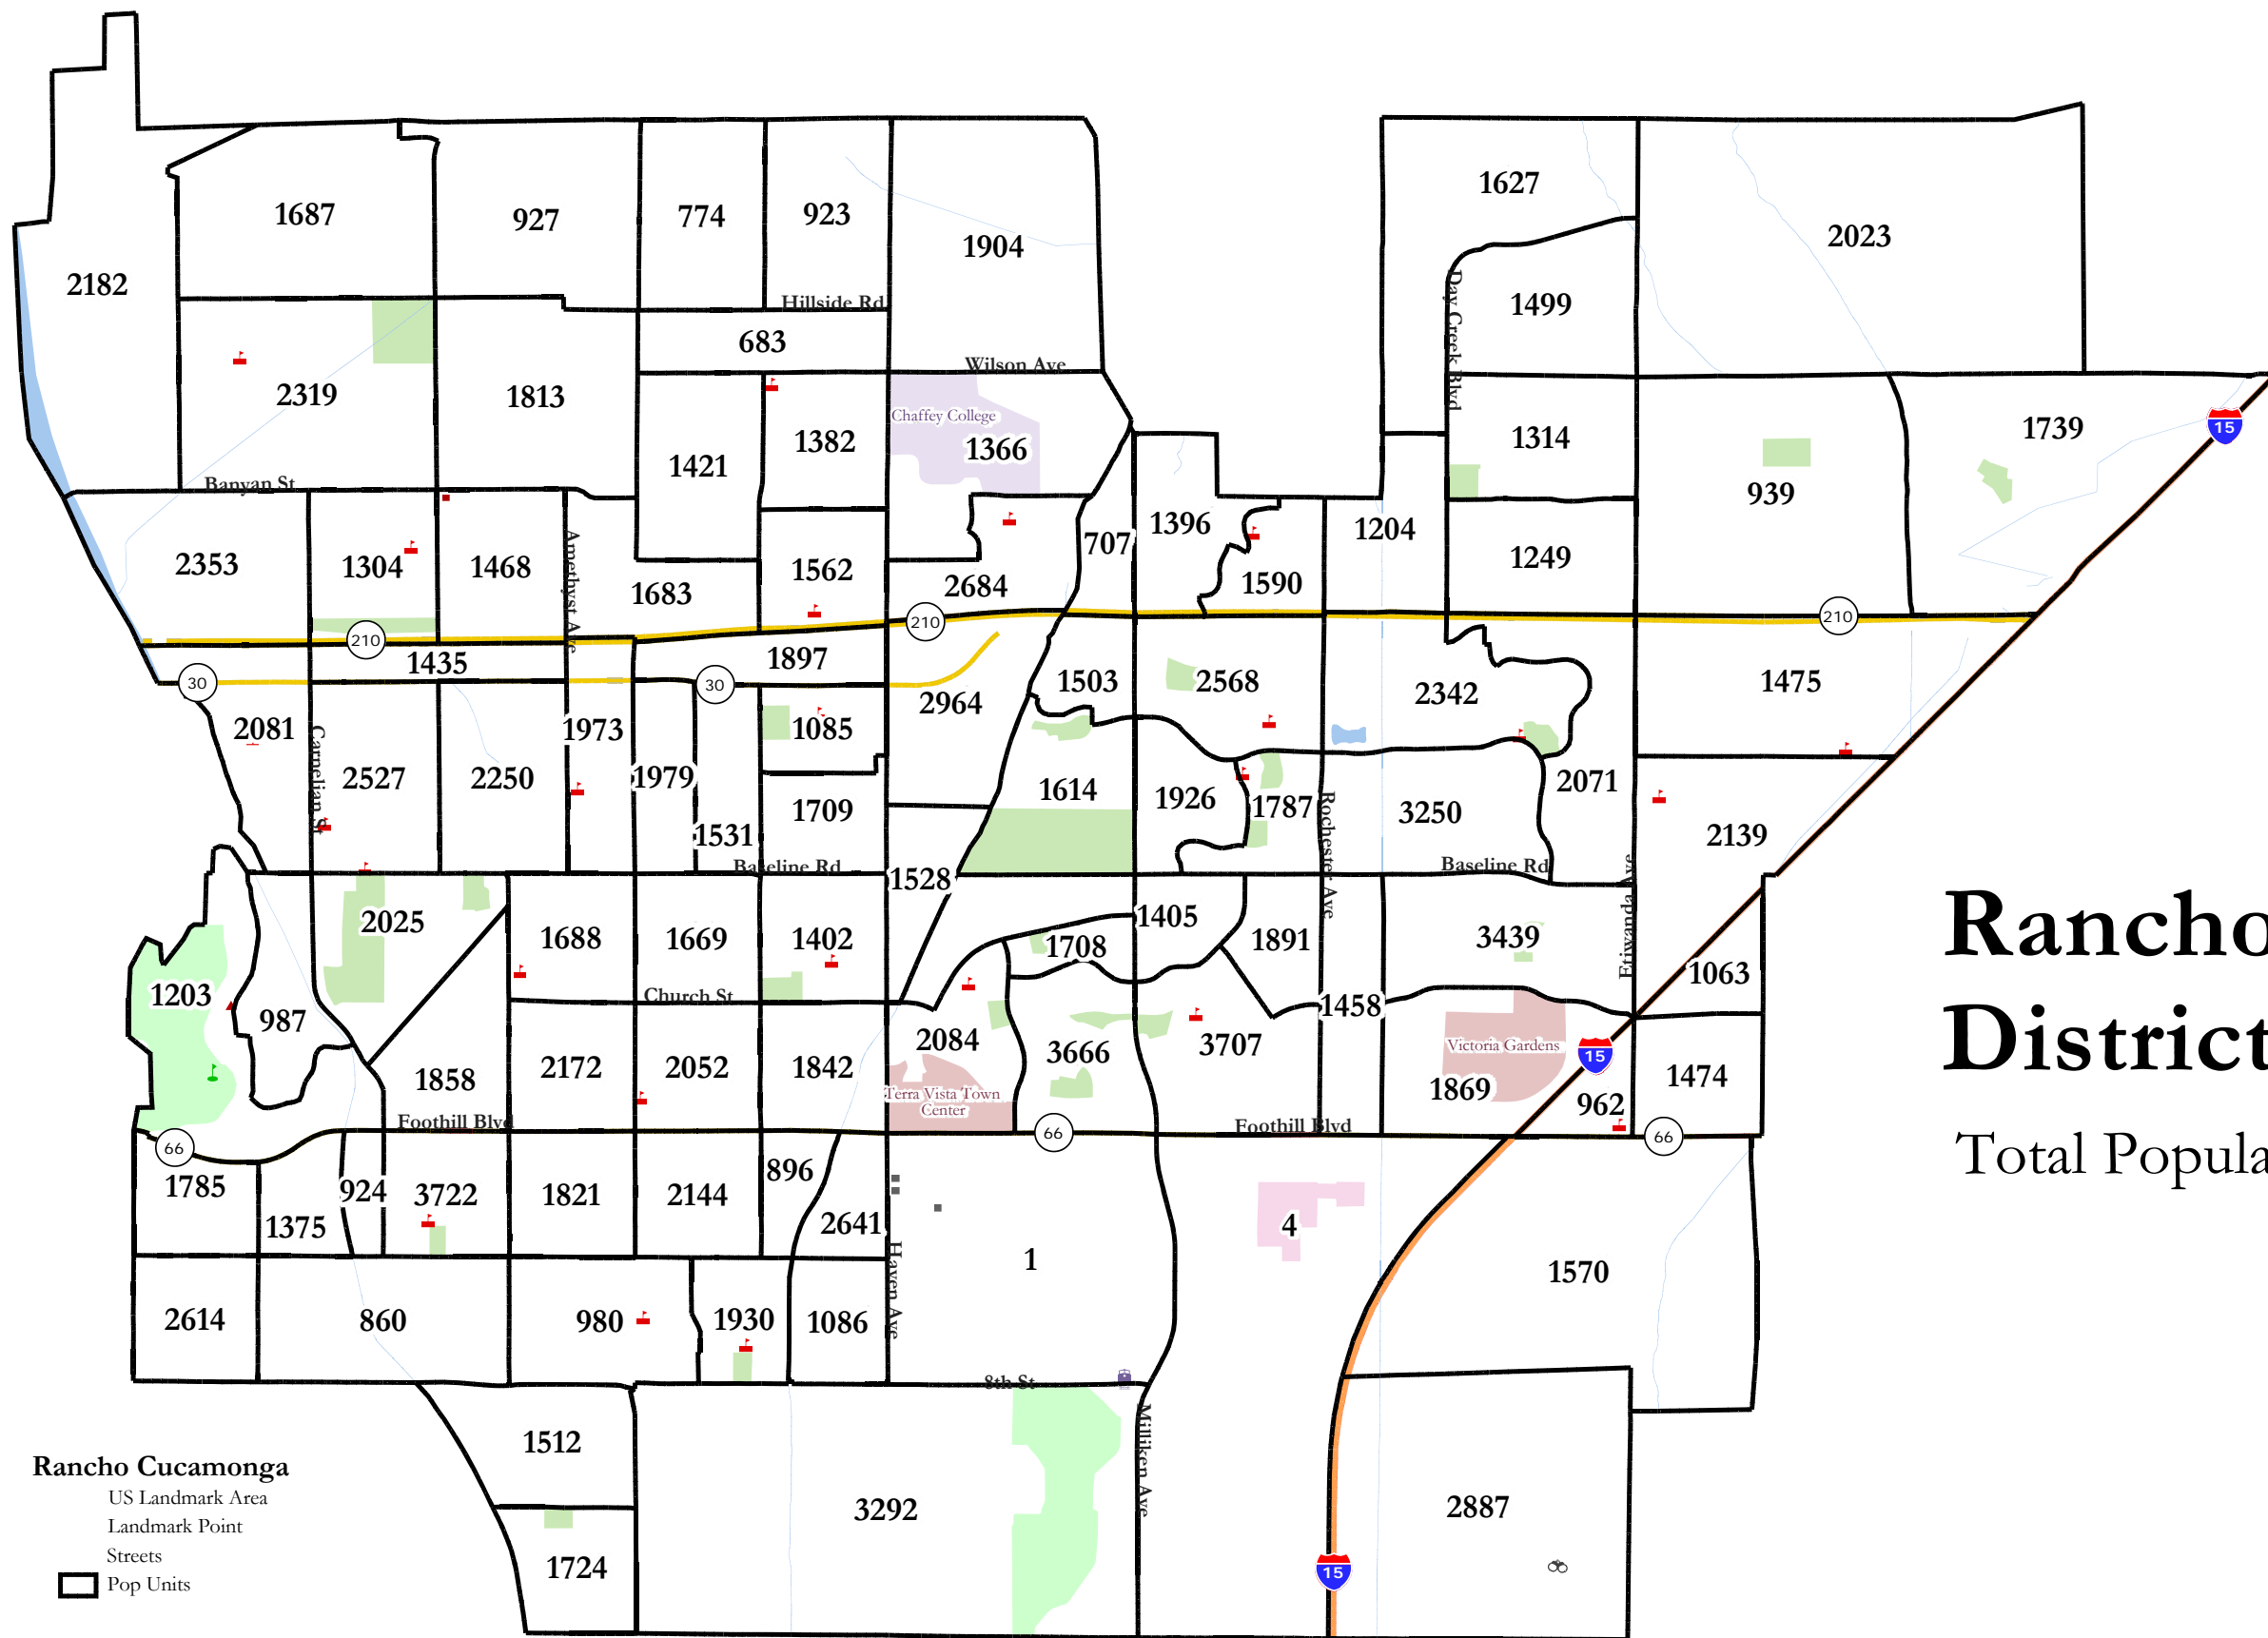

1. Use the maps with the total population counts printed on them to aggregate the population in the population units to develop four council districts that are equal in population. An ideal district population is 41,317 persons (the total population of the City – 165,269 – divided by the number of council districts in the plan [four]). To be within the absolute maximum deviation of 5 percent of the ideal, each district must contain between 39,251 and 44,383 people.
2. Be careful not to split unnecessarily any obvious community of interest. Use the thematic maps and your knowledge of communities to identify these areas.
3. We encourage, but do not require, you to include an explanation of the goals, emphasis, and/or key communities of interest you focused on in developing the proposed plan.
4. **Paper submission:** Transfer your final map lines to a citywide map of population units using a thick black marking pen. Do not submit colored maps, as they will not fax, unless you can scan and email them. Submit your map to the City's consultant, National Demographics, by mail (PO Box 5271, Glendale, California, 91221) or by fax (818-254-1221). Alternatively, send your submission(s) and comment(s) to the City Clerk, who will forward them to NDC for you.
5. **Electronic submission:** email the Excel file containing your district assignments to [djohnson@NDCresearch.com](mailto:djohnson@NDCresearch.com).
6. If you have any questions, please contact Douglas Johnson, NDC consultant, at (310) 200-2058.
