

McColl Zip Codes map submitter's comments:

Mr. Gillison, Mayor and City council;

I understand that we as a city have little choice but to divide our city into voting districts because of the law suit.

I would like to suggest that we just use our zip codes for the new districts, i.e. 91730, 91701, 91737 and 91739, that should accomplish what the law suit is all about and make it simple to establish the new districts.

My thoughts are that district representation will cause problems, increase costs and not represent our city as one but rather four entities. To me voting districts divide not unite a city, yet the historic results of fighting this matter seem grim. I do not view this situation as progress but forcing the will of a minority on the majority and to me that is very sad for us as a city.

I am sure we will look back on this forced action someday and say that it was a mistake that the courts and the laws of California forced on us.

Best regards,

Bradford L McColl
