

# Help Draw the Future for Redlands Elections:

What do you think Redland's City Council Election Districts should look like?

Can you draw 5 districts by connecting the boxes until the populations add up to about 13,749 people per district?

Or can you draw one district with about 13,749 people around your own neighborhood? (The numbers in the dashed boxes indicate the number of people in that box area. White areas are not in the City.)
